By Official Action mailed April 17, 2006 restriction to one of the following inventions is required under 35 USC 121:

- I. Claims, 21-30 and 35-39, drawn to a person computer with shielding structure; and
- II. Claims 31-34, drawn to a structure for shielding electromagnetic energy.

In response, Applicants hereby elect the claims of Group I, i.e., claims 21-30 and 35-59 for examination in this case without traverse.

Applicants note that the Restriction Requirement somewhat mischaracterizes claims 35-39, because these claims are directed to a structure for shielding electromagnetic energy from a first side of a structure to a second side of a structure, with no mention being made of a personal computer. However, Applicants also note claim 35 is broad enough to cover a personal computer.

Early examination on the merits is courteously solicited.
